EXPERIENCE

Accenture PH

Feb 2026 - May 2026

SAP BTP Intern

- Completed intensive training in SAP BTP, focusing on learning development, integration, and cloud-based solutions.
- Applied SAP S/4 HANA concepts, including Procure-to-Pay (P2P) and Materials Management (MM) processes.
- Gained insights into cloud architecture and data integration strategies through practical experience.

ACADEMIC PROJECTS

Enhanced Solid Waste Management with Computer Vision (Thesis)

Lead Programmer / ML

- Led model development by training a TACO dataset and performing extensive data augmentation to improve detection accuracy.
- Fine-tuned YOLO v5 with a ResNet-50 backbone, optimizing hyperparameters to achieve higher precision and robust performance.

Medimarc Trading

Jan 2024 - May 2025

Full-Stack Developer

- Developed a full-stack inventory system featuring item tracking, sales invoicing, and automated sales and report.
- Designed and implemented a static company website to enhance online presence and client credibility.
- Applied SEO best practices to improve search visibility and overall website reach.

Web Development Course Requirement Projects

- Developed web applications using Java, HTML, CSS, and Python as part of coursework.
- Created mobile application prototypes using Flutter and Dart, enhancing cross-platform development skills.
- Applied front-end and back-end fundamentals to build responsive interfaces and functional web features.
- Leveraged Python (NumPy, Pandas, Scikit-learn) to build and evaluate machine learning models

EDUCATION

University of Santo Tomas

Aug 2022 - Jun 2026

Bachelor of Science in Computer Science specializing in Data Science

CERTIFICATIONS & SKILLS

- **Tech Skills:** React; Django; TypeScript; JavaScript; Java; Jupyter; MySQL; HTML; CSS; Next.js; Tailwind CSS; Shadcn UI; PyTorch; Python; Machine Learning
